CONCEPT PAPER

Background: In the background of World Social Work Day 2019, Association of Professional Social Workers & Development Practitioners (APSWDP) and Rajiv Gandhi National Institute of Youth Development Regional Centre, Chandigarh in technical partnership with State Legal Services Authority (SLSA), Chandigarh, School of Public Health, PGIMER, Chandigarh, Punjab Energy Development Agency (PEDA) and The Climate Reality Project- India has planned to mark and observe the global day among social work students for strengthening Social Work Profession in the country and also organize a Capacity Building & Training Workshop on Effective NGO Management and Sustainable Development Goals for Local Actors, Grass Root Youth Network and Organizations from progressive states.

Youth can play a decisive role in promoting the Sustainable Development Goals (SDGs) by 2030. They can significantly contribute to tackling global issues with their imagination, energy, and appropriate advocacy strategies. They have great potential to positively impact the society by adopting Think Global and Act Local.

Now the inclusive society is paying attention to the role and impact of Social Work Education as a means of implementation of SDGs. Social Work Education is considered as the main tool and enabler that will accelerate the achievement of SDGs. It is vital in driving progress towards achieving each and every one of the 17 goals. It is already empowering millions of individuals around the world by providing access to professional education in social work, welfare administration and social development.

During the workshop, participants are going to explore innovative solutions to the problems at local by learning and thinking at global levels. They will also be sharing their own ideas to address various issues and come up with concrete action plans to accelerate the achievement of SDGs through social work education.

Objectives: The objectives of the capacity building & training programme for local actors, grass root youth network and organizations on Effective NGO Management are:-

- a. Promoting Professional Social Work concept, approaches, principles, methods, areas, skills and code of ethics.
- b. Promoting Social Work Education for Sustainable Development (SW-ESD).
- c. Empowerment and Capacity Building of grass-root youth organizations engaged in sustainable agenda 2030 at local level.
- d. Building effective youth led advocacy network and partnership to promote sustainable development goals

- e. Mainstreaming of youth network and grass root organizations on linkages and forging partnerships with the line ministries, departments, global development and action research led organizations.
- f. Identifying and showcasing best practices among participating organizations.
- g. To encourage young people to be active advocates of SDGs
- h. Promote information sharing and exchange within the progressing states to work in cohesion effectively with Youth led network
