## THREE DAY WORKSHOP

The Climate Reality Project India has organized a **Master Training Certification on Green Campus Program** from 22nd January 2020 to 24<sup>th</sup> January 2020 at New Delhi. APSWDP has nominated **Mr. Hitesh Kumar Gulati, Director – Policy and Administration (Hon.)** to undergo the certification programme on behalf of the association so as to act as Master Trainer for further training.

### **Green Campus/ Green School Program**

“Green school program enables schools to conserve natural resources, use less water, optimize energy efficiency, generate less waste, and teach climate change and sustainable education and addresses well-being of children as compared to conventional school.”

Green School Programme is a platform wherein schools are suggested measures to improve the sustainability factor and green practices. Green School Programme also imparts climate change education to teachers as well as students.

The main aim of the workshop was to provide an overview on climate change and Sustainable Development Goals (SDGs) and sensitize the teachers of schools and colleges in the region, about the relevance of teaching climate change and Sustainable Development Goals (SDGs), and to bring leadership in schools and colleges for the change.

## BENEFITS OF WORKSHOP

- Provide an overview on Sustainable Development Goals with special focus on environmental goals.
- Promoting Education for Sustainable Development (ESD).
- Effective platform to sensitize teachers about SDGs and climate change as the need of the hour. As facilitators, teachers make the difference by taking the message to the students and youth efficiently.
- Direct benefits to school management, teachers, students and community.
- Create awareness and build leadership in the school community through the workshops.
- Provide broader platform with global recognition.
- Creates the sustainable environment and acts as learning lab for students at school.
- Create awareness at community level.
- Green School practices improve building efficiency, performance, health and well-being of the occupants.

Country Manager  
The Climate Reality Project - India

Kamal Meattle  
Trustee  
The Climate Project Foundation

APSWDP has been prudent in providing capacity building and awareness on United Nations Sustainable Development Goals (SDGs) with an aim to generate mass awareness among the youth of this country. Primarily, our association has been meticulously working on Goal 13 – Climate Action which also touch upon few of the crucial aspect of human existence, global warming as the result of human interventions and possible solutions to protect the mother earth from the hazards of climate change.

Further, APSWDP has committed and affirm in providing support to the Climate Reality Project India for taking up the training to wider level in voluntary manner through partnerships with other institutions.
